## PROFILE

Frontend Developer with expertise in **React** and **Next.js**, focused on building modern, accessible, and high-performance web applications. Skilled in translating designs into functional, responsive interfaces and implementing robust frontend architectures. Passionate about clean code, performance optimization, and user experience. Currently seeking a frontend role to contribute to impactful projects while continuing to grow professionally.

**Core Stack:** React, Next.js, TypeScript, Tailwind CSS, Node.js, PostgreSQL

## TECHNICAL SKILLS

### Frontend Development

- **Frameworks & Libraries:** React, Next.js (App Router, Server Components, Server Actions)
- **Languages:** TypeScript, JavaScript (ES6+)
- **Styling:** Tailwind CSS, CSS Modules, Responsive Design, Design Systems
- **UI/Component Libraries:** ShadCN/ui, Radix UI
- **State Management:** Zustand, React Context API, React Query
- **Performance:** Code splitting, lazy loading, bundle optimization, Core Web Vitals

### Backend & Development Tools

- **Backend Integration:** REST APIs, GraphQL (Basic), Next.js API Routes
- **Database & ORM:** PostgreSQL, Prisma
- **Authentication:** NextAuth.js, JWT, OAuth
- **Testing:** React Testing Library, Jest, Vitest (Fundamentals)
- **Version Control:** Git, GitHub, Git Flow
- **DevOps:** Docker (Fundamentals), Vercel Deployment, CI/CD Concepts

### Development Practices

- Component-driven architecture
- Accessibility (WCAG 2.1, ARIA)
- Performance optimization techniques
- Code review & pair programming
- Agile/Scrum methodologies
- Mobile-first responsive design

## PROJECTS

### Professional Portfolio | [Live Demo](#)

*A modern developer portfolio showcasing skills and projects*

- Built with Next.js, TypeScript, and Tailwind CSS
- Features dark/light mode, responsive design, project showcase, and integrated blog
- Implemented custom design system with ShadCN/ui components
- Optimized for performance, SEO, and accessibility

### Full-Stack E-commerce Platform | [Live Demo](#)

*A complete e-commerce solution with admin dashboard*

- Full-stack application with Next.js, Prisma, and PostgreSQL
- Features product management, user authentication, payment simulation, and advanced filtering
- Implemented CRUD operations, admin dashboard, and responsive UI
- Focus on performance, security, and user experience

### Additional Projects & Experiments

- Various React/Next.js applications demonstrating modern patterns
- Open-source contributions and technical experiments
- Continuous learning projects exploring new technologies
- GitHub Portfolio

---

# EXPERIENCE

### Frontend Developer | Independent Projects & Freelance

- Developed and deployed multiple web applications using React and Next.js
- Implemented responsive, accessible UIs from Figma designs using Tailwind CSS
- Built full-stack features including authentication, data fetching, and state management
- Optimized applications for performance, achieving high Lighthouse scores
- Collaborated with designers and developers to deliver polished products

---

# EDUCATION & LEARNING

### Continuous Self-Directed Learning

*Ongoing*

- **Frontend Development:** Advanced React patterns, Next.js features, TypeScript
- **Web Performance:** Optimization techniques, Core Web Vitals, bundle analysis
- **UI/UX Design:** User-centered design, accessibility standards, design systems
- **Software Engineering:** Clean code, testing, architecture patterns

### Technical Communication

- **Spanish:** Native proficiency
- **Portuguese:** Professional working proficiency
- **English:** Technical reading/writing (documentation, code reviews, technical discussions)

---

# PROFESSIONAL OBJECTIVE

Seeking a **Frontend Developer** position where I can leverage my expertise in React and Next.js to build exceptional digital products. I aim to join a collaborative team where I can contribute to meaningful projects, solve challenging problems, and continue growing as a developer. Passionate about creating accessible, performant, and maintainable applications that deliver value to users.

---

# KEY STRENGTHS

- **Problem Solving:** Ability to break down complex requirements into implementable solutions
- **Adaptability:** Quick to learn new technologies and adapt to project needs
- **Attention to Detail:** Focus on code quality, UI polish, and user experience
- **Collaboration:** Experience working in team environments and receiving/giving feedback
- **Self-Motivated:** Proven ability to manage independent projects and continuous learning
